17<sup>th</sup> November 2008

Hello Mark,

I am writing to thank you for the outstanding event you hosted last Friday. Our children voted every single activity a huge success. From Street Dance to Tae Kwon Do they had a really great time. They thoroughly enjoyed themselves and also learnt many new skills.

Your introduction to so many new sports and activities went a long way to engage those of our children who do not find general sport inspiring. They found that there were things that they could succeed in alongside peers, and sometimes better than classmates who are already engaged in more general school sport. The enthusiasm and sensitivity of your professional staff really helped to drive the initiative forward. They were prepared to show every child that success was within their grasp. This meant that every child finished the day feeling inspired and excited.

My staff also returned to school full of new ideas and ready to take this forward. They too were impressed by the dedication of your team.

This has got to be what our national drive toward 2012 and sport for all is about. If every young person across the country can be as genuinely engaged in meaningful physical activity on a regular basis as our children were, we are certainly moving toward a happier, healthier nation.

Once again many thanks and please do contact us as soon as you have another session planned.

Best regards,

*Adrian Hamilton*
